

What type of investor are you?

Understanding risk is about determining your capacity for risk and uncertainty, as well as your attitude towards risk.

Remember, this is a guide only and may not accurately reflect your particular circumstances. Before making your choice you should refer to the relevant Booster KiwiSaver Scheme Product Disclosure Statement and talk with a financial adviser to help you plan for your future. A disclosure statement is available from them, on request and free of charge.

For each of the questions, read the statements and tick the number that most applies to you. If there is more than one person completing this questionnaire, please ask them to use the additional columns provided.
